Test yourself - Answer key

2.1.

Protective clothing

- > **Lab Jackets and Overalls:** Made from flame-resistant materials to protect the body from sparks and heat. These are designed to cover most of the body to prevent direct contact with hazardous elements.
- > **Protective Boots:** Typically fitted with insulated, non-conductive soles to prevent electric shock. They also provide protection from falling tools or materials.
- > **Safety Glasses:** Protect the eyes from flying debris, sparks, or harmful flashes of light that may occur when working with electrical circuits.
- > **Helmet or Hard Hat:** Protects the head from falling objects and accidental contact with electrical conductors.
- > **Insulated Gloves:** Vital for ensuring the electrician's hands are shielded from electric shocks and burns.

Why is Protective Clothing Important?

Electricians often work in environments where the smallest mistake can lead to serious injuries. Protective clothing reduces the risks and helps ensure that electricians can safely perform tasks such as:

- > Installing or maintaining electrical systems.
- > Working on high-voltage circuits.
- > Operating heavy-duty tools near live circuits.

By following safety protocols and wearing the correct protective gear, electricians can significantly lower their chances of workplace accidents.

2.2.

Let's practise!

HAND TOOLS

1. Label the pictures of the different **PLIERS** with the words which are given below and their translation into Spanish

Crimping
plier

Side-cutting
plier

Lineman's
plier

Needle nose
plier

alicate de
engarce

alicate
universal

alicate de
punta fina

alicate de
corte lateral

1.

2.

3.

4.

2. Label the pictures of the different **SCREWDRIVERS** with the words which are given below and their translation into Spanish

Flat head
driver

Robertson

Hex keys

Nut head
driver

destornillador
de tuercas

destornillador
Robertson

llaves
hexagonales

destornillador de
cabeza plana

1.

2.

3.

4.

3. Label the pictures of the different CUTTING TOOLS with the words which are given below and their translation into Spanish

Knife	Electrician scissors	Wire strippers	Hack saw
pinza pelacables	sierra de arco	cuchilla	tijeras de electricista

1.	2.	3.	4.

4 Label the pictures of the different GRIPPING TOOLS with the words which are given below and their translation into Spanish

Crescent wrench	Socket wrench set	Wrench/ spanner	Fuse puller
llave ajustable	juego de llaves de vaso	extractor de fusibles	llave fija o inglesa

1.	2.	3.	4.

5. Label the pictures of the different MEASURING DEVICES with the words which are given below and their translation into Spanish

Tri-square	Torpedo level	Measuring tape
cinta métrica	nivel de burbuja	escuadra de carpintero

1.	2.	3.

POWER TOOLS

6. Label the pictures of the different POWER TOOLS with the words which are given below and their translation into Spanish

Power saw	Power drill	Electric solder
taladro eléctrico	soldador eléctrico	sierra eléctrica

1.	2.	3.

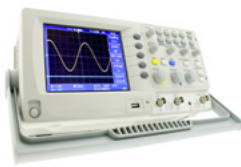

TESTING TOOLS

7. Label the pictures of the different TESTING TOOLS with the words which are given below and their translation into Spanish

Clamp meter	Voltmeter	Thermographic camera	Oscilloscope
Wattmeter	Multimeter	Ammeter	Non-voltage detector

cámara termográfica	Vatímetro	osciloscopio	pinza amperimétrica
multímetro	detector de ausencia de tensión	amperímetro	voltímetro

1.

2.

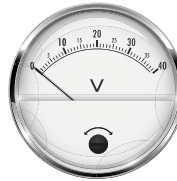

3.

4.

5.

6.

7.

8.

PROTECTIVE CLOTHING

8 Label the pictures of the different PROTECTIVE CLOTHING with the words which are given below and their translation into Spanish

Lab jacket	Protective boots	Overall
Safety glasses	Helmet	Gloves

guantes	mono de trabajo	bata de laboratorio
gafas de seguridad	botas de seguridad	casco

1.

2.

3.

4.

5.

6.

2.3.

Test yourself!

1. What is the name and translation of the pliers commonly used to cut wires?
 - a. Alicates de corte lateral / Side cutter pliers.
 - b. Alicates de punta fina / Needle-nose pliers
 - c. Alicates universales / Universal pliers
 - d. Alicates de engarce / Crimping pliers
2. Which is the correct translation of "flat head screwdriver"?
 - a. Destornillador de tuercas
 - b. Destornillador de cabeza plana
 - c. Destornillador Robertson
 - d. Llaves hexagonales
3. Which of the correct translation for "pinza pelacables"?
 - a. Electrician's scissors
 - b. Wire stripper
 - c. Knife
 - d. Hacksaw
4. What is the correct translation of "adjustable wrench"?
 - a. Llave fija
 - b. Juego de llaves de vaso
 - c. Llave ajustable
 - d. Extractor de fusibles
5. Which measuring tool corresponds to a "carpenter's square"?
 - a. Nivel de burbuja
 - b. Cinta métrica
 - c. Escuadra de carpintero
 - d. Calibrador
6. Which power tool is a "soldering iron"?
 - a. Sierra eléctrica
 - b. Taladro eléctrico
 - c. Multímetro
 - d. Soldador eléctrico

7. Which of the following instruments is used to measure voltage and current in a circuit?
 - a. Thermal camera
 - b. Voltage absence detector
 - c. Multimeter
 - d. Wattmeter
8. Which tool is used to visualize electrical waveforms?
 - a. Voltmeter
 - b. Oscilloscope
 - c. Clamp meter
 - d. Ammeter
9. Which protective clothing item is used to protect the eyes?
 - a. Safety glasses
 - b. Helmet
 - c. Gloves
 - d. Coveralls
10. Which of these garments is suitable to protect your feet in an industrial environment?
 - a. Lab coat
 - b. Gloves
 - c. Helmet
 - d. Safety boots

2.4.

Answer key

1.

1. Lineman's plier → alicate universal
2. Needle nose pliers → alicate de punta fina
3. Crimping plier. → alicate de engarce
4. Side-cutting plier → alicate de corte lateral.

2.

1. Hex keys → llaves hexagonales
2. Nut head driver → destornillador de tuercas
3. Robertson → destornillador Robertson
4. Flat head driver → destornillador de cabeza plana

3.

1. Electrician scissors → Tijeras de electricista
2. Wire strippers → pinza pelacables
3. Hack saw → sierra de arco
4. Knife → cuchilla

4.

1. Fuse puller → extractor de fusibles
2. Wrench/spanner → llave fija o inglesa
3. Crescent wrench → llave ajustable
4. Socket wrench set → juego de llaves de vaso

5.

1. Measuring tape → cinta métrica
2. Tri-square → escuadra de carpintero
3. Torpedo level → nivel de burbuja

6.

1. Power drill → taladro eléctrico
2. Power saw → sierra eléctrica
3. Electric solder → soldador eléctrico

7.

1. Oscilloscope → osciloscopio
2. Ammeter → amperímetro
3. Clamp meter → pinza amperimétrica
4. Thermographic camera → cámara termográfica
5. Wattmeter → vatímetro
6. Voltmeter → voltímetro
7. Multimeter → multímetro
8. Non-voltage detector → detector de ausencia de tensión

8.

1. Lab jacket → bata de laboratorio
2. Protective boots → botas de seguridad
3. Gloves → guantes
4. Overall → mono de trabajo
5. Helmet → casco
6. Safety glasses → gafas de seguridad

Test yourself - Answer key
